Largest Circulation in the District Reading Matter on Every Page. WASHINGTON CITY: 3 HURSDAY October 5, 1871.

Tactics of the Enemy. It is reported to us on good authority that the western capital-movers regard the works of improvement now under way here as of so much importance in deciding the permanency of the seat of government at Washington that they have determined to make a strong effort to defeat the plans and curtail the powers of the Board of Public Works through Congress, as early as possible after the meeting of that body, whether the loan bill is carried or not.

Whether this be true or the reverse, it is certain that an ex-Governor of Missouri and an ex-member of Congress from that State who have been actively identified with the peripatetic movement were here lately, and were not only surprised but considerably demoralized by the numerous and extensive improvements, both public and private, now being pushed forward in the city, and furthermore that they did no hesitate to express the opinion that if the spirit now manifest was kept alive and allowed to bear fruits, the efforts of the would-be capital-mover. would hereafter be vain. At any rate, if things go on at the present gait, with the consen both of the people of the District and of Con gress, they personally think it will be useless to agitate the question longer.

It is an old rule in warfare to take lessons from the enemy; and in this development of the campaign our people will see double reasons for prosecuting a judicious and comprehensive system of public improvements in Washington.

We are indebted to the German and only for many customs which have added greatly to the pleasures of our social life; but for industrial ideas which have vastly improved our modes of teaching. The Kindergarten system, where not adopted in full has been partially adopted in many sections of this country, modifying our old methods, greatly to the advantage of many of the schools, public and private. Holland, however, seems to be ahead in the matter of practical education, and we hope soon to see her "Ambacht" schools introduced in the United States. These schools were created for the purpose of affording technical instruction to the children of the poor, and are scattered throughout the kingdom. The one at Amsterdam gives instruction to one hundred and four boys, who are taught in such a way as to enable them, on leaving school, immediately to earn wages at various handicrafts. The children attend school from 8 o'clock in the morning till 8 at night, a recess of two hours being allowed for meals and recreation. They are taught reading, writing, mathematics, chemistry, geography, telegraphy, carpentry, smith's work, turning, drawing, designing, sculpture, &c., and the full course of study extends over three years, the charge for each pupil being between six and seven dollars per annum. These schools are said to be the chief cause of the small proportion of paupers to the population of Holland.

English republicans may mean well, but they are poor logicians. One of the planks in their platform recently premulgated reads as follows: "Obligation of the State to provide suitable employment for all citizens able to work, and sustenance for the incapacitated; none to live upon the labor of others." These two clauses are in direct conflict with each other, and how they are to be reconciled the platform does not explain. If the State is to give work to those able to labor and feed those who cannot work, the State has got to raise the money by taxation or otherwise, and however it is raised it must come from the products of somebody's labor. In that case, of course, there will be a class who " live upon the labor of others." The fact is, this platform is about as impracticable and stupid as some framed on this side of the Atlantic.

The question of reading the Bible in the public schools has got around to Richmond, where not many years ago such a controversy was impossible, because there were no public schools to read the Bible in. It is contemplated in that city to either forbid the reading of the Scriptures and singing of hymns in the public schools, or leave it to the discretion of the teacher to use the Bible and have prayers or not, as each one of them may individually determine. One of the fashionable society papers of New

York has the following: "Mr. Frank Lord sailed for Europe last week. Mr. Lord intends passing the winter between

London and Paris." Frank must be an employe on a railway, or, possibly, a deck hand on one of the miserable little channel steamers. For his own comfort,

we trust it is the former. THE MEMBERS OF COLUMBIA TYPO-GRAPHICAL SOCIETY are requested to attend the funeral of the late WILLIAM WOODWARD from No. 513 Massachusetts avenue, TO-MORROW

Synopsis for the past Twenty-four Hours.—
The low barometer which was Wednesday morning in the northwest has moved rapidly eastward, and is probably now central on Lake Huren; fresh and brisk winds from Missouri to Lake Erie have accompanied this movement, but the prevailing dry smoky atmosphere has tended to dissipate the disturbance. Cloudiness is reported only from Lakes Erie and St. Claire. The cyclone in the eastern Gulf has moved very slowly eastward to the Florida peninsula with southwest winds in southern Florida; southeast winds with rain on the south Atlantic coast. Hazy and pleasant weather continues with rising barometer in the Middle and Eastern States.

PROBABILITIES.—The barometer probably will fall from the lower lakes to the East Atlantic, with partially cloudy weather and fresh southerly winds. Hazy weather, with occasional cloudiness from the middle Atlantic coast westward. The storm in the The Weather. middle Atlantic coast westward. The storm in the Gulf will probably pass entirely to the South Atlantic coast, with a temporary diminution of its severity. Beports are not yet received from Texas and upper Michigan.

Of the FIFTEEN MILLION CHESAPEAKE and OHIO SIX PER CENT. LOAN, but about \$4,500,000 remain unsold, and this remainder will be taken up rapidly. The five years' option having expired on all series of Five TWENTY Bonds, except 1857s and 1858s, they are liable to be called in for payment. The redemption of 100 millions FIVE TWENTIES in coin, and the purchases by the Government during the ensuing four months, with the premium thereon, will release about 150 millions of invested capital, independently of dividend and interest payments, the greater part

of which must must seek reinvestment. THE CHESAPEAKE AND OHIO SIXES have absolutely 30 years to run; are especially desirable for steady investments, and can now be bought

17 PER CENT. LESS THAN TEN-FORTIES, 20 PER CENT. LESS THAN FIVE-TWENTIES. 25 PER CENT. LESS THAN SIXES OF 1881, and are equally sure to be paid principal and interest in gold coin. Their amount is limited by the Trust Deed to \$15,000,000. Price (at present) 93 and accrued interest, that is, with coupon attached, payable Nov. 1. \$1,000 Chesapeake and Ohio Bond costs to-day

\$500 Chesapeake and Ohio Bond costs to-day 8 477.08. \$100 Chesapeake and Ohio Bond costs to-day

Only a small amount of the latter denominations remains, and no more can be made. Bonds are in oupon or registered form, same as Five-twenties. This debt is created by the Chesapeake and Ohio Railroad Company in order more speedily and effectually to extend and complete the main line of their Boad to the Ohio river. This work-THE MOST IMPORTANT INTERNAL IMPROVEMENT NOW PROGRESSING IN THE COUNTRY-is rapidly approaching completion. It will establish another and superior line of communication between the Ohio and Mississippi valleys and the eastern cities; bringing ten millions of people, mainly producers, nearer to the centers of consumption in the Eastern States, and nearer to the political and commercial capitals of their country. Such is the commanding importance of this Trunk Line that the larger cities of the West are projecting feeders to connect with it, so as to avail themselves of its unequaled facilities as soon as it is completed. Large tracts of valuable coal and iron lands along its route are passing into the hands of practical miners and on manufacturers; a large city is springing up a the western terminus, the head of reliable navigation on the Ohio, where it intersects 12,000 miles of river transit, and will soon be in connection with

30,000 miles of railroad carriage. The CENTRAL PACIFIC SIX PER CENT. BONDS are as safe for investment as Government bonds. Their amount, fixed by act of Congress at \$25,885,000, is ecured by property worth four times their value; they can only be bought in the open market, and are becoming scarcer in consequence of their graduar absorption by investors here and in Europe; they HAVE A READY MARKET IN ALL THE PRINCIPAL MONEY-CENTERS, and have still twenty-four years to run; the earnings of the road are steadily increasing, and will probably reach \$10,000,000 for the current year, affording a handsome surplus after payment of expenses and interest.

Present price, 101% to 102. When the Chesapeake and Ohio Railroad is completed, in 1872, and the Bonds are dealt in at the Stock Exchanges of the world, we have no doubt they will be equally popular with the Central Pacifics. Both principal and interest of the CENTRAL PACIFIC and CHESAPEAKE AND OHIO BONDS are specifically payable in gold coin in New York; the interest on the former being paid January and July, and of the latter, May and November, corresponding with the two classes of Five-twenties.

We recommend either of them to our friends and customers with the SAME CONFIDENCE THAT WE DID THE FIVE-TWENTY BONDS, when we were selling millions of them for the United States, Government.

We buy and sell FIVE-TWENTIES, TEN-FORTIES, EIGHTY-ONES, and CENTRAL or WESTERN PACIFICS, or receive them in payment for CHESAPEAKE AND OHIO BONDS at their current market price. Orders for Chesapeake and Ohio Bonds, accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expense, and the Chesapeake and Ohio Bonds, in exchange,

will be sent by return Express, charges paid. FISK & HATCH. P. S.-Accounts of Banks, Bankers and others received, on which we allow Four per Cent interest, Certificates of deposits issued and collections made

HE GREAT DISCOVERY. LETTER FROM GENERAL HOWARD WASHINGTON, D. C., July 21, 1871.

PROF. T. A. COOK:—Dear Sir: I have for some time used the BALM OF LIFE in my family as a wash, and have found it all you recommend. I am glad to join others in commending an article that is evidently doing so much good. Yours, truly, O. O. HOWARD, Brig. General U. S. A.

Letter from JUDGE WYLIE, of U. S. Supreme Court, D. C.

WASHINGTON, D. O., June 24, 1871.

Dear sir: I have given your BALM OF LIFE for the hair a fair trial, and am much pleased with its effects. It is a healthful wash for both the scalp and hair; and its influence to sooth the nerves and revive the system when exhausted from over work is most delightful. I have not used it except as a wash, but on your recommendation, and from the faith its use, thus far, has secured from me, I should feel great confidence in taking it as a medicine, according to your directions.

Very respectfully yours, Prof. Cook.

ANDREW WYLLE.

Deer Professor:

After using your BALM OF LIFE in many instances of disorders in my family, I am glad to say it affords the relief sought. For diarrhea, colic, sick headache, catarrh, cough, and all external inflammation I am convinced of its efficacy, by use.

Dear friend: Please send me a supply of BALM OF LIFE, the which, if a gratuity, (as suggested,) will be gratefully acknowledged, or if charged to me will be duly honored. I am altogether pleased with it.
